| Tasting Notes | In making this JOANNA RIESLING, we have preserved the flavours of the grapes in their natural state. The aromas of fresh lime and apple blossom combine favourably. The palate is vibrant and fresh with tingling fruit and a crunchy mineral acid finish. | |
| Comment | The World Heritage Listed Naracoorte Caves in South Australia are part of the rich, limestone fossil beds that lie directly under the dunes where our vineyards grow. It is here where our Riesling vineyard produced this fine example of Australian Riesling. | |
